COMBO Deck Scaling Machine **RUSTBIT 500**

Now, you can take benefits of the popular rust scaling technology. Rustbit 500 offers the user a popular rust scaling technology, which will give outstanding performance in surface preparation. It is simple to operate and effective on surface treatment of the decks. Every components has been carefully designed and field-tested for its strength and reliability.

Operation

- According to the condition of decks, handle Rustbit 500 two or three times back and forth.
- Three-linked chains made of tempered steel strike against decks and remove rusts, scales and old paints.
- Press down slightly the O-shaped handle so that other scaling parts are not worn away and only chains are able to play a role to remove rust & scale.

Attention

- To protect Rustbit 500 from overloading, a special safety locking device is installed. In the event of overloading, stop the operation for 20 minutes.
- Working time of one and half hours is recommended for long-life service.
- When assembling, carefully tighten bolts & nuts just enough for the first linked-chains between plates to be shaken easily.
